Got a cool Hotmail story? [Tell us now](#)

The artists studio is the renovated New Pier Store situated at the ferry terminal opposite the Caledonian MacBrayne Pier office. There are two working spaces, one of which used to house community and touring exhibitions, 6m x 3m, and the other an open workshop space, 6m x 6m. There are three electric kilns: a small test kiln and two 9kw twin kilns (40x30x70cm) each with a computer programmer.
